

Changes to the offer for members ages 31 and over

1 The student offer is ending

Our current offer for students will be discontinued on November 17, 2024. If you're 31 or over and you currently have this offer, you will no longer be eligible for your free plan. This applies at all caisses where you have the offer.

On November 17, 2024, your current account will become an **everyday account**.

With this account, you do not earn interest on your balance. If your goal is to save, consider getting a Savings Account. You can also contact your advisor for more information about investment solutions that will fit your needs.

If you currently have a transaction plan, it will remain in place and you will automatically be billed the appropriate fee. If you don't have a plan, your transactions will be charged individually.*

*How transactions are charged individually

Service fees are charged on certain regular transactions, like money transfers and purchases with your debit card. For more information about these fees, visit desjardins.com/fees.

2 Monthly fees for paper statements

When the offer comes to an end, account maintenance fees¹ for paper statements will come into effect. If you want to continue receiving paper statements, they are only offered free with the **Basic** plan. Otherwise, they cost **\$2.25 per month. Online statements are always free.**

Check out the fees for the various **monthly plans** and for **paper statements** (if applicable) to **decide which option best meets your needs**. Whether you currently have a plan or not, you have the option to select a new plan for your everyday account.
